

# THE TERMINATOR WASP LURE

Protect your back yard and picnic areas from annoying and potentially harmful wasps with Synergys' Wasp Terminator Lure. Designed for use in THE WASP TERMINATOR TRAP, but also effective in most commercial wasp traps. "Lure" wasps into traps using an environmentally friendly food grade attractant, that is irresistible to wasps but does not affect pets or beneficials like bees or butterflies. Wasp Terminator Lures provide an easy, clean and effective way to manage these unwanted summer pests.

## Instructions for use:

1. **DO NOT OPEN VIAL (Lure).** This will cause premature evaporation of lure contents.
2. Remove one lure from protective plastic pouch and place in the trap. Store unused lure in air tight container in freezer.
3. Hang trap well away from food or populated areas (8-10 ft).
4. Clean traps periodically to remove wasps.
5. Replace lure after 4-6 weeks.

**Lure is a powerful attractant. Wash hands with soap and water after handling. Keep away from children.**
